Please initial your understanding of the following:

1. LCAS cannot guarantee the success of any particular aspect of your habitat program. _____
2. Preparation and planting is up to the participant _____
3. After three years, re enrollment allows further participation. _____.
4. May LCAS post photos of your success on our social media sites and other publications? yes/no _____
5. We may take photos of your property/plants to help us identify plants and make recommendations. _____

WHAT TO EXPECT

- We will spend roughly one hour with you while we walk around your yard, take notes, and chat with you about your goals and dreams for your yard.
- We will explain the certification process, the choices open to you, and answer questions.
- We will send you a report within two weeks of the site visit with recommendations and actions you may take.
- We make follow up phone calls at 2 and 4 months and will provide a certification visit at your request. There is no deadline for certification.
- You will receive an “In progress” lawn sign upon enrollment and a durable, metal certification sign when certified.
- You will receive a packet with information and resources in the community to complete your goals. This includes a card for discounted prices at our local native plant nurseries, as well as a \$10 coupon to use at either Doak Creek or Trillium Nursery.

When you are notified of selection we will accept payment.

Thank you for joining the community effort to help our birds and pollinators!!
